Local Server Installations***

About Highnix

Highnix is based in Singapore and it is supported by a team of professional analysts, developers and programmers with more than 70 years of total experience in system development. It delivers low cost, efficient yet robust Accounting, ERP and POS solutions that help Small and Medium Enterprises to efficiently handle and manage the tedious business, inventory and manufacturing transactions such that the unproductive activities are reduced or eliminated. Staffs and employees therefore do not need to extend their work hours unnecessarily especially during month end, quarter end or year end closing. This translated to tremendous cost savings for the customers.
